

Breathless

You can drop your attitude
Check your baggage at the door
Lose all your pretensions
Give in to love, not war

I'll show you all the things you want to be
But you're not
I'll take you to a place you'll never want to leave
Now you're caught

I wanna free you with my kiss
I wanna taste you with my lips
I wanna love you just like this
And leave you breathless, breathless

Drop your so-called friends
Once fabulous, now a bore
Lose yourself in me
And maybe so much more

I'll show you all the things you wanted to be
But you're not
I'll take you to a place you'll never want to leave
Now you're caught

I wanna free you with my kiss
I wanna taste you with my lips
I wanna love you just like this
And leave you breathless, breathless

I wanna free you with my kiss
I wanna taste you with my lips
I wanna love you just like this
And leave you breathless, breathless
