

## **World On Fire**

### **V1**

I try to tune out  
All the noise in my life  
When they try to tell me  
Nothing's gonna be alright

The radio and the TV  
The what-if's and the maybe's

### **Chorus**

*I went to bed last night dreaming  
I woke up this morning screaming  
I closed my eyes the world was turning  
I woke up and now it's burning  
It's a world on fire  
It's a world on fire*

### **V2**

I try to listen  
To that voice in my mind  
The one that's never sleeping  
The voice of mankind

The prophets and the preachers  
The books and all the teachers

### **Bridge**

Burn it down, baby! (x3)  
Yeah

### **Ending**

Burning, burning right down  
It's a world on fire  
I went to bed last night dreaming, yeah  
(repeat)
