

## This Time

### V1

They say in time it gets better  
But time has a mind all its own  
It passes just like the weather  
Will it rain forever?

The fall is steep and dangerous  
The climb is slow and treacherous  
The walls are closing in on us this time

### Chorus 1

We should've known better  
We should've seen the signs  
We couldn't be together  
This time, this time

### V2

They act like we've fallen from grace  
But we were never up there anyway  
We'll bear a mark upon our faces  
And be scarred together

The fall was steep but glorious  
That day we were anonymous  
Our sins are not forgiven this time

### Chorus 2

We should've known better  
We should've seen the signs  
We couldn't be together  
This time

We should've known better  
We should've seen the signs  
We couldn't be together  
This time, this time

Bridge

Forgiveness is just a word  
Forgetting is just a blur  
Time was never on our side, no

Chorus 3

We should've known better  
We should've seen the signs  
We couldn't be together  
This time

We should've known better  
We should've seen the signs  
We couldn't be together  
This time, this time
